DETAILED ACTION

Allowable Subject Matter

Claims 21-37 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 21-31, there is no teaching or suggestion in the art of record disclosing a pull-up element for a silicon based semiconductor circuit having a MISFET configured with a trapping region situated proximate to an interface of the channel that couples a high-voltage potential to a first node of the circuit wherein the trapping sites are in accordance with the limitations of claim 21 in combination. Therefore, independent claim 21 is deemed allowable along with its dependent claims 22-31.

Regarding claims 32-37, there is no teaching or suggestion in the art of record disclosing a pull-up element for a SOI logic circuit having a MISFET configured with a trapping region situated proximate to an interface of the channel that couples a high-voltage potential to a first node of the SOI logic circuit, wherein the trapping sites are in accordance with the limitations of claim 32 in combination. Therefore, independent claim 32 is deemed allowable along with its dependent claims 33-37.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
